

## CURRICULUM VITAE

**Jakub Wiener**

*[jakub.wiener@tul.cz](mailto:jakub.wiener@tul.cz)*

Born in Czechoslovakia, Jakub Wiener is 42 years old. He graduated in Textile Technology from the Technical University of Liberec in 1996. Since 2000, he has worked at Technical University of Liberec, Faculty of Textile Engineering, Czech Republic. Currently he is a full-time professor at Department of Material Engineering. His research and development is focused on nanotechnology in textile chemistry and recently also on textile dyeing and chemical analyses of textiles. He is the author of more than 300 scientific papers published in journals or on conferences.

Technical University of Liberec is now one of 26 public higher education institutions in the Czech Republic, and the only university in the Liberec Region. Technical university of Liberec offers Bachelor's, Master's and Doctoral degree study programmes in many specializations. More than 8000 students study at six faculties and one specialized institute. At the Faculty of Textile Engineering it is possible to study textile materials and technologies, clothing technologies, textile marketing and design. Faculty of Textile Engineering consists of six departments. There are Department of Design, Department of Textile Evaluation, Department of Nonwovens and Nanofibrous Materials, Department of Material Engineering, Department of Clothing Technologies and Department of Textile Technologies.
